# Noah, and the GAY LIONS

God saw how corrupt the earth had become, So God said to Noah, I am going to put an end to all people, for The Earth is filled with violence. So make yourself an Ark of gopher wood; I will establish my covenant with you, and you will enter The Ark with your family. You are to bring into The Ark two of all living creatures, male and female.

The animals marched by the hundreds for miles. Two by two, one male and female, gathered in The Ark to escape the flood. Until two lions were stopped from boarding by Noah.

The two male lions looked to Noah asked “Why can we not Board? We have marched beside each other our entire life and could never see ourselves being without each other.”

Noah responded ”Gods instructions are clear. Two sets of every animal, male and female. We cannot have any same sex couples on our Ark. Begone.”

Two male giraffes approached the Arc and Begged "Please Noah, allow us on the Ark! We want to remain together but do not wish to drown in this terrible flood."

Noah stopped The Giraffes in their path and declared "The rule of God is clear. Two animals of every kind, male and female. We cannot have two male giraffes."

Three Penguins attempt to board the ark and Noah stops them.
The Three Penguins protest saying “The love We have for the three of us is as true as the love for Noah and his wife.”
Noah denies the Penguins. “There must never be more than two animals of every kind, male and female.”

A single Panda approaches The Ark and requests to board.
"I don't need a partner," The Panda said to Noah. "I am happy and content being with myself."
Noah denies the Panda "God's rule says it must be two of every kind, a male and female, no less"

A Black Panther and Spotted Leopard approach The Ark and request to board.

"Please Noah, We are two animals looking to board The Ark for safety.

Noah denies them. "Two of every kind. A Black Panther and Spotted Leopard are two different kinds. God cannot allow the kinds to mix. Even if you were just two Black Panthers, We already have two Non-Black Panthers on board.

Two Goats approached The Ark and spoke to Noah, “The Lions, The Giraffes, The Penguins, The Panda, and The Leopard and Panther are all our friends. If you refuse to help them, we will refuse to board your Ark. They deserve love and protection like everyone else.”

Noah responded “I cannot do this, The Lord's words are clear. Two animals of each kind, male and female. No more. Begone”

The waters rose and increased greatly on The Earth, and The Ark floated away on the surface of the water. The remaining animals gathered on a hilltop as the water slowly rose. Then a bright, spectral light began to shine for them.

After forty days and forty nights, Noah found land and saved a covenant for God. As the clouds parted, in the far distance on the horizon, bowed an Arc of color and light.

**Lionesses** have been recorded on at least 5 occasions that to sometimes grow manes and take on the roles of Male Lions. It would be a projection of human constructs to call them a trans-man lion, but then again, calling any wild animal a man or woman is also human projection.

**Giraffes** are known for taking part in homosexual behaviors more often than other mammals. So often that Dawn Butler, Member of UK Parliment once claimed that 90% of Giraffes are Gay. That exact percentage is reported to be an exaggeration by wildlife experts, but that isn't to say Giraffes are not still frequently homosexual.

**Penguins**, like most animals, are not strictly monogomous. On one notable occassions, two female penguins brought a widowed male panguin into a relationhip after the males previous mate had died.

Panda's are notoriously difficult to breed and are in fact indangered because of it. While we can never fully understand what goes on in the mind of a Panda, they have become aro/ace icons because of their low libido and lack of interest in sexual activity.

A Black Panther and Spotted Leopard were once spotted and photographed togethor. Wildlife observers confirmed that they were in fact a pair bonded couple. This is not the only time different types of cats have coupled. There are also Ligers, Mules, Beefalo, and Wholphins.

Unlikey Animal Freinships have been caught the attention of scientists, wildlife experts, and people on find animals cute and adorable. Example have included a Goat and a Wolf, a Hippo and a Tortoise, A Tiger and a Pig, and a Pigeon and a Monkey. They are reminders that it doesn't matter how different we are from one another, we can always still be allies.
